

BA4480X

8AH 56V ARC LITHIUM™ MAX BATTERY

EGO's first 56V ARC Lithium MAX battery features Tabless Cell Technology for demanding applications. It delivers up to 40% higher output power, fast charging in as little as 20 minutes when used with the EGO PGX2500PB Power Bank, and up to twice the cycle life compared to equivalent capacity batteries using standard cells. Built-in Bluetooth connectivity enables inventory management and charge status monitoring.
